Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) Responsive to communication(s) filed on 13 July 2006.
- 2a) This action is **FINAL**. 2b) This action is non-final.

DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: In the newly amended paragraph [0029], the phrase "An opening on orifice 30" is vague and unclear. It appears that the opening is the orifice and not on the orifice.

Appropriate correction is required.

Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 20 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Searfoss (6,022,145) in view of Belmont et al. (6,327,754). Searfoss discloses a product display plastic bag for packaging, displaying and transporting goods comprising: upper and lower surface members (see figure 1 embodiment) interconnected along each edge by a side member, said side members being interconnected along adjacent edges forming an enclosed inner area for receiving said goods; an orifice (see column 4, lines 32-36) formed in one surface of said bag; a patch including an elongated strip (flap 13) attached to one surface in position closing said orifice, said patch being attached in such a manner as to allow said elongated strip to be movable from said orifice to form a carrying handle (inasmuch as the flap can be moved to a position that it can be held by a hand it does form a carrying handle) and or to allow finger access to

said product, and said patch being returnable to said position to cover and re-close said orifice. Searfoss as described above discloses all the limitations of the claims except for the bag having a re-sealable opening for in and out access have said product. Belmont discloses that it is desirable to provide resealable closures such as zippers for bag that can securely close and reopen the bag for repeated use. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to provide a re-sealable closure for the bag of Searfoss as taught by Belmont to securely close and reopen the bag for repeated use.

With respect to claim 22, Searfoss discloses that it is desirable to make the patch from vinyl, see column 4, lines 43-55. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the material of the bag and the patch and make it from transparent vinyl, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416.

Allowable Subject Matter

4. Claims 1-19 are allowed.

Response to Arguments

5. Applicant's amendments/arguments see response filed 07/13/06, with respect to 1-19 have been fully considered and are persuasive. The rejection under 102(b) and under 103 (a) pertaining to those claims has been withdrawn.

Conclusion

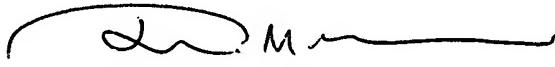

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
